Key Findings

Finding 1: Chile fue identificado como país CHL en Latin America & Caribbean, con clasificación de income.

Finding 2: La tabla consolida 30 indicadores oficiales con último valor disponible, año de referencia y tendencia reciente.

Finding 3: Structured data covering report_size, indicator_policy, indicator_count, requested_indicator_count.

Conclusion

The compiled material supports a descriptive report profile of Executive, with traceability maintained across narrative text, tables, and charts.
